## **Recycling—No Mas Basura**

## Team Meets for Recycling Training with Plastics Jungle

We are pleased that we are now able to recycle nearly everything in our relationship with the Plastics Jungle. Together with our bottle crusher, we only have to address organic compost recycling. That is quite an ambitious project so we are planning this initiative for next year.

The next step is up to all of us to make sure we buy products that can be recycled and then sort our general trash from recycling. Vivo can do it!

P.S. This information contains a Spanish lesson gratis!

## Contenedor Mixto para papel y cartón

Las colillas de cigarro se retiraràn de los contendores en el área de fumar, para los empleados que fuman favor de colocar sus colillas en estos contenedores.
